WEB DEVELOPMENT

ACTIVITY BASED LEARNING

1. Personal Portfolio Website

AIM

To design a responsive personal portfolio website that presents a student's profile, educational qualifications, technical skills, hobbies, projects, achievements, resume link and contact details.

HTML CODE

```
<!DOCTYPE html>
<html lang="en">

}
```

OUTPUT

CONCLUSION

Thus, the project was designed using HTML for page structure, CSS for presentation and JavaScript for basic interaction. It demonstrates the use of front-end web development concepts in a practical website.

2. College Fest Management Website

AIM

To create a college fest website that displays technical events, cultural competitions, workshops, event schedules, coordinators, rules and a registration form.

HTML CODE

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">

OUTPUT

CONCLUSION

Thus, the project was designed using HTML for page structure, CSS for presentation and JavaScript for basic interaction. It demonstrates the use of front-end web development concepts in a practical website
